## CUT STONE PAVERS

---

### STANDARD SIZES OF PAVERS

Thickness available: 20mm – 100mm

For sizes larger than 494 x 494mm  
a minimum of 40mm thick is necessary

### CUT STONE COLOURS

Whilst WilsonStone cc endeavours to meet customer expectations, colour of products and colour consistency within products supplied by WilsonStone cc cannot be guaranteed due to the natural colour and aggregate size variation of the sand used to produce the relevant products. Samples if provided can therefore only be used as indicators of texture.
